OCEANSIDE SCHOOL DISTRICT AT THE CORE

Curriculum, Instruction, and Assessment

We believe that curriculum, instruction, and assessment must be developed in a manner that provides a challenging, engaging, and meaningful education for all students.

Meeting the Needs of All Learners

We believe that our programs should be designed to address the needs of all learners so that Oceanside's students will perform at their highest potential with equitable educational opportunities consistent throughout the district.

Communication

We believe that communicating timely and accurate information is a critical component to fostering a positive relationship with all school and community members.

Community Outreach

We believe that by providing our residents with intellectual, social and recreational opportunities, we enhance the lives of our community members.

Social and Emotional Literacy

We believe that the skills associated with Social and Emotional Literacy (SEL) promote physical, mental, and social well-being, that allows children to grow to be healthy and productive citizens in their community.

Professional Learning

We believe that professional learning is the cornerstone of the growth and development of our faculty and staff committed to continual improvement.

Technology

We believe that technology should be used to maximize and enhance learning by becoming a natural integration into existing best practices.

Facilities & Operations

We believe that all district facilities must be safe, secure learning environments and that district operations must be continually strengthened to provide the appropriate resources to support and enhance the educational experience for all.

NEW YORK STATE SCHOOL COUNSELING AMENDED REGULATIONS 100.2(J)

Below are key amendments to Part 100.2(j) of the Commissioner's Regulations, as per the New York State Education Department, to take effect commencing with the 2019-2020 school year. These changes are broken down into six different components: (A) The Program, (B) The Services: K-5, (C) The Services: 6 -12, (D) The Services: All Students, (E) The Plan, and (F) Advisory Council.

The Program

1. Each school district shall have a comprehensive developmental school counseling/guidance program, for all students in Kindergarten through grade 12.
2. Each school district shall ensure that all students in grades Kindergarten through twelve have access to a certified school counselor(s).
3. For all grades Kindergarten through twelve, district and building-level comprehensive developmental school counseling/guidance programs shall prepare students to participate effectively in their current and future educational programs as age appropriate.
4. Additionally, the program shall be designed to address multiple student competencies, including career/college readiness standards, and academic and social/emotional development standards.

The Services: K-5

1. In grades Kindergarten through five, the program shall be designed by a certified school counselor in coordination with the teaching staff, and any appropriate pupil personnel service providers.
2. The program shall be designed for the purpose of preparing students to participate effectively in their current and future educational programs, to provide information related to college and careers, and to assist students who may exhibit challenges to academic success; including, but not limited to, attendance or behavioral concerns.
3. The program shall also, where appropriate, make a referral to a properly licensed professional and/or certified pupil personnel service provider, as appropriate, for more targeted supports.

The Services: 6-12

1. For students in grades six through twelve, certified school counselors shall provide an annual individual progress review plan, which shall reflect each student's educational progress and career plans.
2. For a student with a disability, the plan shall be consistent with the student's individualized education program.

The Services: All Students

1. School counseling/guidance core curriculum instruction shall be for the purpose of addressing student competencies related to career/college readiness, academic skills, and social/ emotional development by a certified school counselor(s).
2. For a student with a disability, the plan shall be consistent with the student's individualized education program.

The Plan

1. Each school district shall develop district-wide and building-level comprehensive developmental school counseling/guidance plans which set forth the manner in which the district shall comply with the requirements of the regulations.
2. Such district/building level plans shall be developed by, or under the direction of, certified school counselor(s) and be updated annually, available for review at the district office and each school building, and made available on the district's website.
3. Each plan shall be developed annually and shall include program objectives, activities, program development and maintenance planning, school counseling curriculum, professional development planning, evaluation methods based on data analysis of program results and closing-the-gap analysis reports to inform program improvement, and assessment of the resources necessary to support positive student outcomes.
4. Each plan shall also include the preparation of a "program outcomes report" that includes an analysis of all systematic components of a comprehensive developmental school counseling/guidance program as defined by this subdivision. Such report shall be annually presented to the Board of Education.

Advisory Council

1. Each school district shall establish a comprehensive developmental school counseling/guidance program Advisory Council to be comprised of representative stakeholders (such as parents, members of the Board of Education, school building and/or district leaders, community-based service providers, teachers, certified school counselors, and other pupil personnel service providers in the district, including school social workers and/or school psychologists).
2. The Advisory Council shall meet no less than twice a year for the purpose of reviewing the comprehensive developmental school counseling/guidance program plan and advising on the implementation of the school counseling/guidance program.
3. The Advisory Council shall create and submit an annual report to the Board of Education.

OCEANSIDE SCHOOL DISTRICT'S SCHOOL COUNSELING PROGRAM

School Counseling Vision

We believe that school counselors serve as student advocates, mentors and teachers who develop relationships with students and families. These relationships drive our ability to support and guide students to achieve success in the areas of Social-Emotional Literacy, Academic Achievement, and College and Career Readiness; ultimately fostering productive citizens who will enrich our community and the world.

The Comprehensive School Counseling Plan

The Oceanside School District's Comprehensive School Counseling Plan follows the model described by the American School Counseling Association (ASCA). According to ASCA, comprehensive school counseling programs:

- will ensure equitable access to a rigorous education for all students,
- will identify the knowledge and skills all students will acquire as a result of the K–12 comprehensive school counseling program,
- are delivered to all students in a systematic fashion,
- are based on data-driven decision making,
- are provided by a state-credentialed school counselor.

As recommended by ASCA, our Comprehensive School Counseling Plan contains the following four key elements:

- **Foundation**
 - School counselors create comprehensive school counseling programs that focus on student outcomes, teach student competencies, and are delivered with identified professional competencies.
- **Delivery**
 - School counselors deliver a comprehensive school counseling program in collaboration with students, families, school staff and community stakeholders.
 - *Direct services* with students are face-to-face or virtual interactions between school counselors and students, and include the following:

- School counseling core curriculum
- Individual student planning
- Responsive services
- *Indirect services* are provided on behalf of students as a result of the school counselors' interactions with others, including:
 - Referrals for additional assistance
 - Consultation and collaboration with families, teachers, other educators, and community organizations
- **Management**
 - School counselors incorporate organizational assessments and tools that are concrete, clearly delineated, and reflective of the school's needs
- **Accountability**
 - To demonstrate the effectiveness of the school counseling program in measurable terms, school counselors:
 - Analyze school and school counseling program data to determine if students are different as a result of the school counseling program
 - Use data to show the impact of the school counseling program on student achievement, attendance and behavior
 - Analyze school counseling program assessments to guide future action and improve future results for all students

The Oceanside School District's Comprehensive School Counseling Plan will be assessed each school year, by the Advisory Council, to ensure that programs and practices are addressing students' needs and are preparing them for future success.

The Advisory Council

The Advisory Council will meet no less than twice a year for the purpose of reviewing the comprehensive school counseling plan. The Advisory Council will be comprised of families, teachers, other educators and community organizations. They will foster alliances amongst businesses, educators, parents, community members and students that will support developing college and career awareness, social-emotional literacy, and academic achievement for students in grades K-12.

School Counseling Goals

Oceanside School District will provide comprehensive services and activities that will foster and enhance student:

- Academic achievement
- College and career readiness
- Social-emotional literacy
- Family involvement
- Attendance

The Comprehensive School Counseling Map (Appendix A) details our K-12 School Counseling programs and services.

This K-12 School Counseling Map outlines specific program activities and services, corresponding regulations and standards, objectives, timelines, student focus, staff and resources, and program goals.

SCHOOL COUNSELING GOAL: ATTENDANCE

Foundation

The Oceanside School District recognizes the importance of student attendance, and the role that it plays in student success. We believe that consistent school attendance is critical to a student's academic achievement, social-emotional development, and college and career readiness.

Furthermore, consistent school attendance helps to strengthen the relationships that exist between students and their counselors, teachers and other support staff.

SCHOOL COUNSELING GOAL: ACADEMIC ACHIEVEMENT

Foundation

The Oceanside School District believes that its programs are to be designed to address the needs of all learners to allow them to perform to their greatest potential. This is to be accomplished by providing students with diverse and equitable educational opportunities throughout their K-12 school experience. The Oceanside School Counseling Department strives to create, implement and evaluate a variety of direct and indirect counseling services that maximize the academic achievement of all students.

SCHOOL COUNSELING GOAL: COLLEGE & CAREER READINESS

Foundation

The Oceanside School District prioritizes the need to promote programs and services that help prepare students for life after high school. We believe that repeated exposure to college and career programs helps students identify their own individual strengths, weaknesses, hobbies and interests, and ultimately promotes feelings of belonging and connectedness to school and the greater community. We incorporate components of college and career readiness throughout its programs.
